

WHY NOW?

Interest rates remain at historic lows, allowing \$158 million to be invested directly in our schools and in-classroom learning.

To best preserve our community's investment in millions of square feet of space across 23 facilities that, on average, are 58 years old.

Upgrades to enhance safety and security for our students and staff.

Building and technology upgrades to meet modern teaching and learning practices.

Improvements to reduce operating expenses and increase environmental quality.

80% of bus fleet will be replaced.
