Section 3. Comparison to Model School Wellness Policies

Indicate the model policy language used for comparison:

- Michigan State Board of Education Model Local School Wellness Policy
- Alliance for a Healthier Generation: Model Policy
- WellSAT 3.0 example policy language

Describe how your wellness policy compares to model wellness policies.

Our wellness policy is very similar to the Michigan State Board of Education Model Local School Wellness Policy. This is because we used the model to make our policy. We did make some minor edits and omissions to customize the policy for our district but overall the policy is still in tact and the same to the original model policy.
